

<b>Key</b>	<b>Summary</b>
SQLB-2012	Support Treasury-style SecureAPI encryption in the .NET data provider
SQLB-2014	ODBC connection manager test connection has changed
SQLB-2071	JDBC Driver Customer reports 3803 03803 RSO INE Fatal SQLBase System Failure (RSE INE) w/ 11.5 SP4
SQLB-2077	An unload from a 11.6 database where a system table has had a column added fails with 11.7
SQLB-2079	A role-based access to a table via MS Access doesn't work
SQLB-2081	OLEDB via ADO will not connect unless there is a ini= statement in the connect string
SQLB-2082	The .NET provider does not seem able to execute a stored procedure
SQLB-2105	SQLBase .Net Data Driver (11.7): Serialize/Deserialize error when using DataTable
SQLB-2106	Saving the security password with 11.7 64-bit does not stay set
SQLB-2108	No error is given if the number of bind variables and parameters don't match with .NET
SQLB-2120	"Using a country=croatia country file, a 'like' returns no rows and unload fails"
SQLB-2123	With a single-user SQLBase version two connections are not possible from one PC
SQLB-2125	Problems with SQLBaseOLEDB 11.7 & Mixed Case Column Names
SQLB-2126	The SQLBaseCommand.GetSQLBaseParameter function does not appear to work with some parameter requests
SQLB-2127	".NET driver puts out an error ""Failed to enable constraints"" in some cases"
SQLB-2128	Cannot create a dataset with VS 200/2012 and database password is not SYSADM
SQLB-2140	INSERT crashing server 00725 Fatal SQLBase System Failure (VIO ITP)
SQLB-2143	SQL API client memory leak with connect and disconnect from C application
SQLB-2144	INSERT crashing server 00703 Fatal SQLBase System Failure (VIO IPN)

- SQLB-2145 "Insert error ""850 - data page corrupted"""
- SQLB-2147 Wrong resultset is returned using TD6.2 and SQLBase 11.7 SP2
- SQLB-2150 A 1304 exception is raised when executing the .NET function OpenServerConnection on an 11.5 server
- SQLB-2152 A 'NullReferenceException' is thrown when copying an empty SqlBase-longvarchar-value to another dataset
- SQLB-2157 Connecting with OLEDB and ODBC connection string does not parse the secureapi= parameter
- SQLB-2158 Connections that do not have an INI parameter do not do the standard search for an ini file
- SQLB-2162 OLEDB driver is ignoring column aliases
- SQLB-2164 Problems parsing date/time in SQL statements with .NET
- SQLB-2165 ODBC Reports invalid username/password when prompting
