

sp6 fixes list.txt

| Key | Summary |
|----------|--|
| --- | ----- |
| TD-20581 | Clicking on a drop down column and away from the column generates SAM_AnyEdit message |
| TD-20730 | SAM_DragCanAutoStart causing DF focus issues in specific scenario |
| TD-20753 | TD crashes when rtf is print to a report |
| TD-20764 | Focus is lost when tabbing from drop down list box column in a grid |
| TD-20770 | RTF control adds an extra line at the end, each time you retrieve the RTF from it and paste it back in |
| TD-20798 | Unable to use scroll slider after SqlTblPopulate |
| TD-20807 | Grid doesn't respont on user actions after SalTblCreateColumn |
| TD-20825 | SalTblReset is very slow if TBL_Flag_AllowSortIncomplete is set |
| TD-20843 | Context menu with popup menu looks strange |
| TD-20861 | VisTblSetRowColorEx sets the text colour using the background colour |
| TD-20866 | When MDI is minimized and then maximized the items on the toolbar are disabled |
| TD-20869 | TD debugger fail to evaluate internal function returns in certain context |
| TD-20870 | DEBUG TRACE pointer not shown in IDE when tracing |
| TD-20880 | Application hangs when trying to close MDI child when popupmenu is open. |
| TD-20881 | SAM_FrameSize message sent twice for MDI windows |
| TD-20885 | Drop down column value is not selected when tabbing through the cells in a grid |
| TD-20909 | WM_MenuSelect is not generated when a menu is closed |
| TD-20910 | With a dropdown listbox a tab now skips over 2 columns |
| TD-20912 | Creating or modifying a MenuItem and MenuPopup on WM_INITMENUPOPUP does not take effect immediately |
| TD-20922 | Scrolling down the grid crashes TD when the focus is set on the push button before starting to scroll |
| TD-20923 | GRID issue in regards to SAM_FieldEdit message and cell focus |
| TD-20927 | SalTblSetFocusCell() sends SAM_AnyEdit to the column |
| TD-20954 | SalFileGetStr() results difference with legacy version |
| TD-20959 | Cannot DEBUG break/pause a looping TD application in specific conditions |
| TD-20963 | Chart Control gpf when data set is large |
| TD-20965 | Windows 8 crash closing dialog |
| TD-20968 | Crash when Grid Window has a cell edit and a slider control for a docked window is activated. |
| TD-20972 | Disabling checkbox-column not always results in disabled column |
| TD-20983 | Windows7 Basic theme has painting issue with radio button selection |
| TD-20988 | Application crashwhen using Frame and Radio Button controls |
| TD-21008 | Fail to evaluate function in debugger variable windows, it is fine in the expression window |
| TD-21009 | WM_MenuSelect is not generated when a sub menu is closed |
| TD-21012 | Nested popup's don't show checkmarks nor can be disabled |
| TD-21025 | App crashes in nested tab app |
| TD-21026 | Disappearance of controls on nested tab |

sp6 fixes list.txt

TD-21029 GRID issue with drop down list in regards to SAM_FieldEdit message and cell focus with grid

TD-21037 Windows 8 crash closing dialog when accessories is enabled

TD-21045 Read access violation undocking a DLG from an MDI

TD-21049 MS WebBrowser Activex steals keystrokes even when it has no focus

TD-21050 Making a non-editable row editable using SalTblSetCellTextColor in a grid leaves drop down column in a different color

TD-21051 It is possible to paste text into a disabled multiline or data field

TD-21052 Read access violation undocking a DLG from an MDI in specific scenario

TD-21057 Up and down arrow in a drop down column of a grid scrolls automatically

TD-21058 Issues with VisTblSetColHdrColor() and GRID only

TD-21063 The focus is set differently on a data field in 6.2 compared to 4.2

TD-21066 No list in Dropdown column in grid

TD-21069 Excessive network send and receives when inserting into a SQLBase database

TD-21071 SAM_AnyEdit or SAM_FieldEdit when tabbing from a drop down column of a grid

TD-21072 In a ribbon bar - clicking on a sub menu with menu items closes the popup menu

TD-21073 Moving from a submenu item to the parent sub menu closes the menu at runtime

TD-21082 Not possible to delete letters in Dropdown grid in specific scenario

TD-21089 Nested popup's don't show checkmarks nor can be disabled

TD-21090 Application crashes when tabbing across the Grid cells

TD-21100 SalCompileAndEvaluate is not compatible between SP1 and SP2 of TD6.2 - also in 6.1 and 6.1 SP5

TD-21112 Last character truncated in Push Button controls in specific environment

TD-21115 QuickObject Database against ORACLE does not show selected table columns.

TD-21118 With certain themes, clicking on an MDI child does not bring the window to foreground

TD-21119 With certain themes, resizing a MDI child goes over the size of the parent

TD-21130 Popup menu items highlight issue

TD-21156 Dynamic menu not updated in specific scenario (WM_INITMENUPOPUP)

TD-21181 With certain themes all radio buttons in a group go unselected when the mouse is held down and dragged

TD-21184 DataField in FRAME and QUICKTAB painting problem

TD-21185 IDE Crash in specific scenario

TD-21202 Menu item created with ID bigger than 20480 does not create a complete menu item

TD-21229 Loosing focus when using SalTabSetActivePage

TD-21235 Grid Double context menu for Editable dropdown column

TD-21245 Loosing focus when using SalTabSetActivePage

TD-21262 Multiline field allows values to be pasted when the vertical

sp6 fixes list.txt

scroll is set to No and bMaxDataLengthInBytes is set to TRUE

- TD-21263 Grid events in wrong order
- TD-21272 RTF fields overlap in report print out
- TD-21293 RTF field in report duplicates to next page
- TD-21305 SAM_FieldEdit is generated unnecessarily in a column in the grid
- TD-21332 Slowness while inserting menu items with VisMenu* functions
- TD-21340 Application crashes in SAM_AnyEdit of grid's dropdown column
- TD-21343 Column colour set using SalTblSetCellTextColor inversion colour choice is not good
- TD-21345 Cannot set the carret cursor within datafields using the mouse in specific scenario
- TD-21362 Loosing focus when switching between apps
- TD-21377 Cannot paste characters in a MultiLineText and a cell of Child Table in specific scenario
- TD-21399 RTF fields overlap in report print out
- TD-21406 Wrong behavior of drop down column inside of a grid
- TD-21407 Grid drop down cannot be closed
- TD-21420 Multiline edit column accepts only 16K max length
- TD-21440 SalMessageBox() loses its focus
- TD-21441 GRID Editable cell remains while row is deleted
- TD-21442 Accessing a value of a specific grid-column will return the data of other column in specific scenario
